 * Version      Date          Author
 * Build 01.00  2000 Mar 11    Ulf Hedlund
 *
 *               Started the class.
 *
 * Known Problems: None
 *
 *               Especially now that the functionality is present :)
 */

public class Application
{
    public static void main(String[] args)
    {
        MainFrame objMainFrame;

        objMainFrame = MainFrame.getMainFrame();

        objMainFrame.show();

        //MainFrame.getMainFrame().show(); Is alternate, but not good solution
    }
} // END Application.java
